

ROGER COUCH

513 W South 1st Street, Johnstown, CO 80534
(970) 515-0090 | Couch.Roger@outlook.com

PROFESSIONAL SUMMARY

Detail-oriented and dependable software engineering professional with a background in database management, algorithm implementation, and team leadership. Proven track record of effectively managing priorities and tackling challenges with a proactive, solution-driven approach. Skilled in both technical and supervisory roles, with a strong foundation in software development, project documentation, and military operations.

SKILLS

Programming & Development: HTML, CSS, JavaScript, Python, SQL

Software & Tools: Visual Studio Code, Anaconda, Visual Paradigm, Git, AutoDesk

Methodologies: Scrum, Agile Development, Algorithm Design and Implementation

Database & Data Science: Database Management, Machine Learning, Data Prediction, Data Analysis and Processing, Predictive Modeling

Technical Abilities: Preventative Maintenance Coordination, Troubleshooting, Technical Documentation, Equipment Repair

Leadership & Management: Team Coordination, Vendor Management, Policy Adjustment, Risk Assessment

PROFESSIONAL EXPERIENCE

Maintenance Supervisor

July 2016 – November 2019

Gold Run Condominiums

- Directed preventative maintenance operations to ensure equipment safety and function, achieving optimal performance and minimal downtime.
- Efficiently handled equipment dismantling and repairs, reducing operational delays through effective troubleshooting.
- Oversaw a team of 1 direct report and coordinated over 5 vendors for a large property (5+ acres), maintaining high standards in property upkeep and vendor relations.

Supervisor / Cannon Crew Chief

May 2006 – June 2015

United States Army

- Demonstrated strong leadership and organizational skills in a high-stakes environment, maintaining team efficiency and adherence to workflows.
- Actively addressed soldier concerns, adapting policies to align with the evolving needs of the U.S. Army Airborne Brigade.
- Managed logistics for over \$1 million worth of equipment during deployment to Combat Outpost Wilderness, ensuring resource allocation and operational readiness in support of Operation Enduring Freedom.

EDUCATION

Bachelor of Science, Computer Science – Software Engineering

November 7, 2023

Colorado Technical University – Colorado Springs, CO

CONTINUING EDUCATION

Bachelor of Science, Electrical Engineering

Start: October 14, 2026

Arizona State University – Tempe, AZ
